

Help Princes Risborough Bees

‘Bee Squared’ Project 2023

Plant these **FREE** wildflower seeds
to help the bees!

Just scatter them over a square
metre of your garden or pop them
into pots.

Instructions and seeds inside.

Contains: Cornflower, Common
Poppy, Corncockle, Corn Chamomile
and Corn Marigold

Community Board
North West
Chilterns

Bees & other pollinating insects have declined significantly over the last 50-years. Together, we can give them a helping hand by sowing these seeds & avoiding the use of harmful pesticides.

Instructions - Plant before the end of May

1. Clear and lightly dig over a square meter of soil OR fill a few pots with soil or peat-free potting compost and place in an open position.
2. Scatter seeds & cover with a fine layer of soil.
3. Firm down gently and water.
4. Keep soil damp.
5. Thin out seedlings if necessary.
6. Share photos and register your B² plot on social media and the PRTC website.
7. Let us know what insects visit your flowers.

Please remember insecticide kills bees

Register your
Bee Squared
Plot on our map
by scanning this
